MEETING OVERVIEW

Assoc. Professor Jenny Cawson

Chair of the Breast Interest Group of the Royal Australian & New Zealand College of Radiologists is pleased to invite delegates to attend the 8th General Breast Imaging Meeting. The B.I.G. Committee will present a leading edge scientific program with an outstanding international and national faculty.

Program sessions will be multi-disciplinary and explore new developments in diagnosis of breast disease. There will be a debate on “Should MRI be the standard of care for women diagnosed with breast cancer?”. The program will follow themed topics including:

- Lobular carcinoma
- Neoadjuvant chemotherapy
- Breast density
- Digital imaging
- Research – advances in imaging and treatment
- Breast MRI
- Familial breast cancer and breast disease in young women
- Image reading skills – delegates can test their accuracy with digital mammography, MRI case presentations and the BREAST test set of films.

Rosalind Given-Wilson, MD is a Consultant breast radiologist at St Georges Hospital, a major UK teaching Hospital in London. She runs the St Georges National breast screening training centre providing post graduate training and CPD for staff from all disciplines within the screening program. In 2008 she held the Royal College of Radiologists Breast imaging Professorship and this involved lecturing nationally and internationally on breast imaging.

She set up the South West London breast screening service in 1991 and was Director for 10 years, and is now Medical Director of the Hospital. She has research interests in CAD and decision making having published over 100 papers and abstracts. She is involved with national QA of breast screening sitting on the UK government advisory committee on breast cancer screening.

Elizabeth Morris, MD is Director, Breast MRI at Memorial Sloan-Kettering and is an integral part of the Breast Disease Management Team. She is also Professor of Radiology at Weill Cornell Medical College. Elizabeth also trains and supervises residents and breast fellows in breast-image interpretation as well as in interventional breast procedures. She is a Fellow of the Society of Breast Imaging and the American College of Radiology (ACR). Elizabeth is Chair of the ACR MRI BI-RADS Lexicon committee and Co-Chair, ACR Breast MRI Accreditation committee.

John Hopper, AM is one of nine inaugural Australian Fellows awarded by NHMRC in 2007. He is a Professorial Fellow with a PhD in Mathematical Statistics, and is currently Director (Research) of the Centre for Molecular, Environmental, Genetic and Analytic Epidemiology in the Department of Public Health at The University of Melbourne. He has published nearly 400 papers, specialising in the statistical methodology and its application for analysing twin and family data, and addressing the genetic and environmental aetiology of diseases and health. He is principal or co-investigator on a number of case-control-family studies across a range of diseases and conditions, particularly breast cancer and colorectal cancer (both funded by the National Institutes of Health (USA)), prostate cancer, melanoma, childhood cancer and asthma. He is a co-investigator on several cohort studies, including Health 2020 and long term follow-up of the 1968 Tasmanian Asthma Study. Professor Hopper has been Director of the Australian Twin Registry since 1990.

Sunil Lakhani, FRCPath, FRCPA is Head of the Breast Group at the University of Queensland Centre for Clinical Research (UQCCR) and Honorary Principal Research Fellow at the Queensland Institute of Medical Research (QIMR). He is Visiting Breast Pathologist at The Royal Brisbane and Women's Hospital. His current research interests include lobular carcinoma and its variants, genomic profiles on normal breast epithelial and stem cells, molecular genetics of tumours with a basal phenotype and molecular pathology of familial breast cancers.

Christobel Saunders, MD trained in the United Kingdom, and was a Consultant Surgeon and Senior Lecturer at University College London Hospitals before moving to Western Australia in 2000. Since November 2002 she has been Professor of Surgical Oncology at the School of Surgery and Pathology, University of Western Australia. Her clinical interests are in the diagnosis and management of breast cancer and melanoma. She is Sub-Dean at the University of Western Australia, Faculty of Medicine. Christobel was the recipient of the 2009 NBCF Pink Ribbon Award for research which includes endogenous and exogenous hormonal risk factors, familial aspects of breast cancer, survivorship issues including fertility and menopause, psychosocial research, minimally invasive treatments and new diagnostic modalities.

HOBART

With the River Derwent at its heart and Mount Wellington rising above it, in Hobart the tranquility of a city from a bygone era coexists with the vibrancy of a pocket-sized modern metropolis. Hobart's European beginnings are evident everywhere, from quaint settlers' cottages to the lofty porches of colonial mansions.

Once bustling with whalers and entrepreneurs, 19th-century sandstone warehouses now serve as dockside cafes, artist's studios and restaurants, where you can enjoy excellent cuisine and fine wines. Hobart is a place of fishing boats, fish punts at the docks, and coffee under the sun-umbrellas where the famous Salamanca Market is held every Saturday.

To Hobart's south east, past the Coal River Valley wineries, is the historic town of Richmond. In nearby Port Arthur you will find thrilling cliff walks and cruises that take you beside 300 metre sea cliffs and Tasman Island.
